

## CALL FOR POSTERS

Submission Deadline: March 3rd, 2023

Students and young researchers are especially encouraged to submit and present their work.

---

Following the regular paper submissions, the Organizing Committee of the 2023 Computing Frontiers conference announces a dedicated Poster Session. We are opening an extended period to encourage poster paper submissions covering the latest research findings, works-in-progress and incipient positioning ideas and results in all aspects of computing. Students and young researchers are especially encouraged to submit and present their work on-site. This year, we have two types of poster submissions: a) a poster-and-abstract submission b) a poster-and-paper submission. Accepted poster-abstracts and poster-papers will be included in the conference proceedings, and the authors will **retain copyright**. Students co-authoring a regular paper submission are encouraged to submit an additional poster-abstract submission.

### SUBMISSIONS

---

Authors must submit either

- a **poster** and a **poster-abstract** (poster-and-abstract submission)
- a **poster** and a **two-page poster-paper** (poster-and-paper submission)

**Poster preparation:** The poster should be prepared in A0 format in portrait orientation (height: 1189 mm, width: 841 mm). There is no template, so feel free to use your own, but you may want to include the conference logo (see below). Make sure the text is clearly readable and graphs and figures are complete with all the necessary labels.

**Poster-paper, abstract:** The poster-abstract should not exceed 250 words. The poster-paper (2 pages including references) should be structured similar to a technical paper, following the **ACM conference format**. Both should describe the content and the research ideas in the poster. All poster submissions will be reviewed by the Poster Program Committee as single-blind submissions.

For further information and updates, including topics of interest, check: <https://www.computingfrontiers.org>

### AT THE CONFERENCE

---

Besides the standard display of posters, the session will commence with **lightning talks**, a.k.a. elevator pitch, where authors will introduce their work to the attendees. There will be a **Best Poster Award** based on voting by the Poster Program Committee.

### IMPORTANT DATES

---

**Submission Deadline: March 3rd, 2023**

**Author Notification: March 17th, 2023**

**Final Submissions Due: March 24th, 2023**

#### Poster Chairs

Sarah Azimi, Politecnico di Torino, IT  
Nusa Zidaric, Leiden University, NL
